

8 Ways to Support Your Children in Literacy Learning

1 Read With & To Them

When you regularly read to your children, you instill a love for reading and model how to read and use text features to support comprehension.

5 Use Technology

Allow your child to use apps, and watch educational reading skill videos to encourage exposure and engagement in learning how to read.

2 Create Cultural Experiences

Take your child to museums, cultural festivals, restaurants, and local international events in order to widen their perspective and increase their vocabulary.

6 Applaud Effort

Encourage the value of small wins as well as big wins in the reading journey . Recognize and celebrate your child's effort, progress & accomplishments.

3 Become Involved

Become involved in your child's school experience by volunteering in the classroom or helping with materials, activities or field trips.

7 Encourage Curiosity

Ask your children open-ended questions about what they are learning in schools (e.g. What are you learning?). Motivate your children to question the world around them.

4 Develop Study Skills

Encourage your children to complete their classwork activities and homework. Take the opportunity to learn alongside them as you help and support them in learning literacy skills.

8 Communicate with teachers

Keep the lines of communication open. When talking to your child's teacher, voice concerns and be receptive to the teacher's advice.
