

Grouping Matrix Decoding Level and Summer School Instructional Level Correlations

If your students have a current Grouping Matrix decoding level and tracking the progress for students who are participating in Really Great Readings SOR (Science of Reading) Summer School lessons is not an approach you will be taking, you may wish to use students' decoding levels to understand which level of SOR Summer School instruction to use.

Use this table to determine which level of SOR Summer School to use.

Another option is to use the Summer School Pre and post assessments. There are 3 sets of pre and post summer school assessments directly aligned to the scope and sequence of the Science of Reading Summer School lessons: one set is for students recently completing Kindergarten, a second set is for students recently completing first grade and the third set is for students recently completing 2-12th Grade. Using the Pre and post summer school assessments will help you diagnose, group and progress monitor students who are participating in the SOR Summer School lessons. Summer School Assessments can be found in the Summer School online tool>Supplemental Resources>PDF Resources>Assessments & Grouping.

	Current GMOL Skill/ Decoding Levels	Summer School Instructional Level
Kindergarten (2021-22)	Students with the majority of their Skill Levels being Low or Emerging	Emerging SOR Summer School
	Students with the majority of their Skill Levels On Track	RGR Summer School Lessons are not recommend for this student.
1st Grade (2021-22)	Emerging, Severely Below or Significantly Below	Emerging SOR Summer School
	Moderately Below or Significantly Below	Developing SOR Summer School
	At or Above Expectations	RGR Summer School Lessons are not recommend for this student.
2nd Grade (2021-22)	Emerging, Severe Decoding Deficit or Significant Decoding Deficit	Emerging SOR Summer School
	Moderate Decoding Deficit or Mild Decoding Deficit	Developing SOR Summer School
	Advanced Vowel and/or Multisyllabic Word Deficits, Slow Reading Rate, Strong Decoder	RGR Summer School Lessons are not recommend for this student.
3rd Grade (2021-22)	Emerging, Severe Decoding Deficit or Significant Decoding Deficit	Emerging SOR Summer School
	Moderate Decoding Deficit or Mild Decoding Deficit	Developing SOR Summer School
	Advanced Vowel and/or Multisyllabic Word Deficits, Slow Reading Rate, Strong Decoder	RGR Summer School Lessons are not recommend for this student.
4th Grade (2021-22)	Emerging, Severe Decoding Deficit or Significant Decoding Deficit, Moderate Decoding Deficit or Mild Decoding Deficit	Developing SOR Summer School
	Advanced Vowel and/or Multisyllabic Word Deficits, Slow Reading Rate, Strong Decoder	RGR Summer School Lessons are not recommend for this student.
5th-12th Grade (2021-22)	Emerging, Severe Decoding Deficit or Significant Decoding Deficit	Developing SOR Summer School
	Moderate Decoding Deficit, Mild Decoding Deficit, Advanced Vowel and/or Multisyllabic Word Deficits	Advancing SOR Summer School
	Slow Reading Rate or Strong Decoder	RGR Summer School Lessons are not recommend for this student.
