

# HD Word End of Program Summative Assessment

## What is the End of Program (EOP) Summative Assessment in the HD Word Reading Playground?

The End of Program (EOP) Summative Assessment in the *HD Word* Reading Playground is a way for you to gauge the level of mastery students have achieved with the specific skills taught in *HD Word*. This cumulative and controlled assessment can indicate whether a student has mastered the skills taught in *HD Word* or whether the student needs additional practice and reinforcement to reach mastery.

The *HD Word* EOP Summative Assessment is a series of 18 short games that the students will play, one after the other. The games were chosen for their ability to showcase your students' knowledge as accurately as possible without face-to-face interaction. Each game assesses one or more unique skills taught within the *HD Word* program. The concepts targeted in the assessment games are phonemic awareness, phonological awareness, phonics, letter-sound correspondence, decoding, and encoding. In total, the combined results of these 18 games will not address every skill taught within the *HD Word* units, but they will assess the major phonemic awareness and phonics skills taught, as well as how students are able to use their phonemic awareness and phonics knowledge to decode and encode controlled words.

## How can I use the HD Word EOP Summative Assessment?

The overall score on the EOP Summative Assessment games can be used to indicate a student's general mastery of *HD Word* instruction; it can provide a grade that can be used formally on a report card, or it can be used more informally to indicate the most appropriate next steps for each student as he or she finishes the *HD Word* program. You can also use the scores on individual games to determine students' level of mastery on specific skills.

## How long will it take my students to complete the HD Word EOP Summative Assessment?

This EOP assessment will take most students between 15 and 30 minutes to complete and can be done in one sitting or broken up into multiple shorter sessions. Student progress will be saved at the end of each game (when the next Start box appears, the previous game's score will be saved), so they can return to the assessment to complete the remaining games at any time.

**FIGURE 1.** Navigating to the assessment

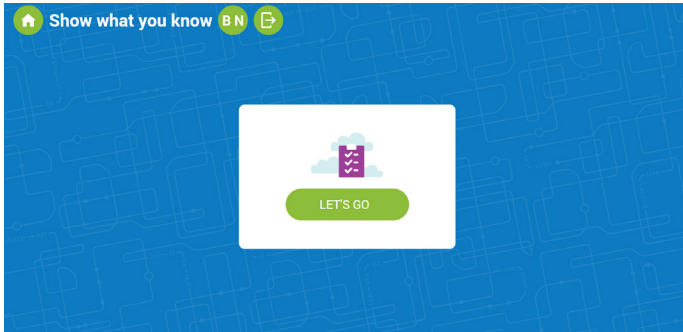

Students should login to the *HD Word* Reading Playground using their normal passcodes. Once logged in, they will see a flower icon in a "Show What You Know" section at the bottom of the main navigation screen. This icon represents the summative assessment. When students click this icon, they will enter the EOP Assessment. You will be able to lock and unlock the EOP assessment so that your students only have access to it when you want them to complete the assessment. (See the next page for information on locking and unlocking the assessment.) Students will have access to Beginning of Year (BOP) Baseline, Middle of Program (MOP) Mid-Interval, End of Program (EOP) Summative assessments in the Reading Playground as you grant access. When all three assessments are given throughout the year, they serve to monitor progress with the skills and concepts taught in the *HD Word* lessons.

## How do my students begin the assessment?

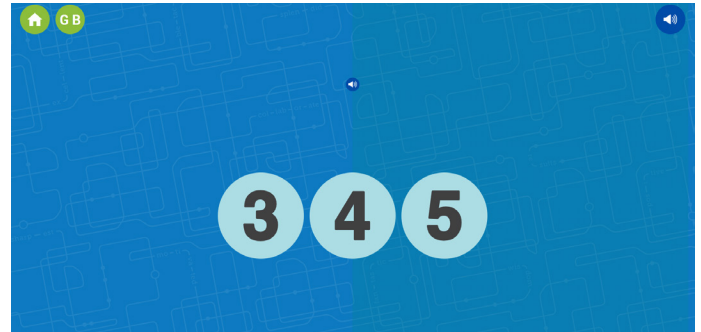

A window will pop up when students click into the assessment. Students will click "Let's Go" to begin. They will view a short instructional video that explains how to complete the assessment, and they will then be

automatically taken to the Game 1 screen where they will view the video instructions for Game 1. After completing the items in Game 1, they will see a pop up asking if they would like to play Game 2.

**FIGURE 2.** Students click "Let's Go" to get started.

**FIGURE 3.** HD Word Assessment, Game 1

## What content is tested in the HD Word EOP Summative Assessment and how does it align to my standards?

The table below shows which content is assessed by game, as well as the number of items for each game and a summary of the directions students hear at the start of each game. The games are significantly shorter than the standard Reading Playgrounds games. The last column shows the alignment of the skills assessed in each game to the [Common Core Foundational Skills Standards for Reading](#).

Game #	Category	Content Assessed	# of Items	Summary of Directions	Standards Alignment
1	Phonemic Awareness	Counting Phonemes	8	Students hear a word and choose the number of phonemes in the word.	RF.2.3, RF.3.3, RF.4.3, RF.5.3
2	Phonemic Awareness	Identifying Vowel Sounds	10	Students hear a word and touch the picture that represents its vowel sound.	RF.2.3.a, RF.3.3, RF.4.3, RF.5.3
3	Phonemic Awareness	Blending Phonemes	5	Students hear a series of isolated sounds. They blend the sounds and touch the picture representing the word they hear.	RF.2.3, RF.3.3, RF.4.3, RF.5.3
4	Phonemic Awareness	Phoneme Addition/Deletion	5	Students hear two words and determine which sound (first or last) was added to or removed from the first word to create the second word.	RF.2.3, RF.3.3, RF.4.3, RF.5.3
5	Phonemic Awareness	Phoneme Substitution	5	Students hear two words and determine if the first, middle, or last phoneme differs between the two words.	RF.2.3, RF.3.3, RF.4.3, RF.5.3
6	Phonological Awareness	Counting Syllables	6	Students sort pictures to the 1, 2, or 3 group based on how many syllables they hear in each word.	RF.2.3, RF.3.3, RF.4.3, RF.5.3
7	Phonological Awareness	Blending Syllables	5	Students hear a series of isolated syllables. They blend the syllables and touch the word they hear.	RF.2.3, RF.3.3, RF.4.3, RF.5.3
8	Phonics	Short Vowels, Digraphs, 2-Sound Blends	5	Students choose the number of sounds they hear in a word, then build the word by dragging letter tiles underneath each color tile.	RF.2.3, RF.2.3.a, RF.3.3, RF.4.3, RF.5.3

9	Phonics	Short Vowels, Digraphs, Trigraphs, 2-Sound Blends, 3-Sound Blends, Digraph Blends	5	Students choose the number of sounds they hear in a word, then build the word by dragging letter files underneath each color tile.	RF.2.3, RF.2.3.a, RF.3.3, RF.4.3, RF.5.3
10	Phonics	Multisyllabic Words with Closed and Open Syllables	5	Students choose the closed or open syllable in a word.	RF.2.3, RF.2.3.a, RF.3.3, RF.4.3, RF.5.3
11	Phonics	Label Syllable Types	10	Students see a word broken into syllables. They label each syllable as Closed, Open, VCE, Vowel Team, R-Controlled, or Consonant-le.	RF.2.3, RF.2.3.a, RF.3.3, RF.4.3, RF.5.3
12	Phonics	Two-Syllable Words with Vowel Teams	10	Students choose the correct syllable to spell the word they hear.	RF.2.3.c, RF.3.3.c, RF.4.3.a, RF.5.3.a
13	Phonics	Schwa	5	Students determine if a word contains the schwa sound or not.	RF.2.3.e, RF.3.3, RF.4.3.a, RF.5.3.a
14	Phonics	Two- and Three-Syllable Words with R-Controlled Syllables	7	Students choose the number of syllables they hear in a multisyllabic word, then drag the correct syllables down to spell the word.	RF.2.3, RF.2.3.c, RF.3.3.c, RF.4.3.a, RF.5.3.a
15	Phonics	Two- and Three-Syllable Words with R-Controlled and Other Vowels	10	Students choose the correct syllable to spell the word they hear.	RF.2.3, RF.2.3.c, RF.3.3.c, RF.4.3.a, RF.5.3.a
16	Phonics	Three-Syllable Words with Latin Endings	5	Students choose the correct Latin ending to spell the final syllable of the word they hear.	RF.2.3.d, RF.3.3.b, RF.4.3.a, RF.5.3.a
17	Phonics	Prefixes and Suffixes	10	Students determine the correct way to break words containing prefixes and suffixes into syllables.	RF.2.3.d, RF.3.3.a, RF.4.3.a, RF.5.3.a
18	Phonics	Split Vowels	5	Students sort each word in the correct group based on whether it contains a split vowel or not.	RF.2.3.e, RF.3.3, RF.4.3.a, RF.5.3.a

## How do I lock and unlock my students' assessment access?

Locking and unlocking the assessment will ensure your students have access to it only when you want them to. To do this, follow the steps below:

- 1 Log in to your Teacher Dashboard.
- 2 Click into your class.
- 3 Click the arrow on the right side of the first student in your class.
- 4 Click "EOP Summative" next to "Program Assessments"
- 5 A box will appear. We recommend that you unlock all games in the EOP assessment which can be done by clicking the box next to "Apply for all games" near the top of the screen.
- 6 Check the box next to "Apply for all students in this class" if you would like this change to occur for all

students and then click the green "Save" button. If you wish to only make this change for one student, just click the green button.

- 7 The assessment will now be locked or unlocked.

## How do I unlock more games at a later time?

To unlock additional games, follow the first four steps for locking and unlocking an assessment. Then, click "Edit available games" before following steps five through seven for locking and unlocking an assessment. These games will be available to your student(s) the next time the EOP Assessment is started.

## How do I reset game data for a specific student?

In the event you need to reset game data for a student, follow the first four steps for locking and unlocking an assessment. Then click "Reset games statistics" and select the game you wish to have the student play again before clicking the green

“Save” button. This game will then appear for the student to replay the next time the student logs in to the assessment.

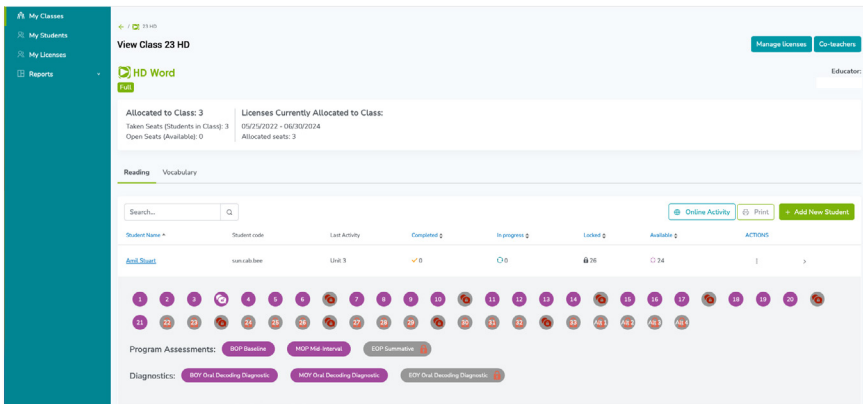

## How do I access the results from this assessment?

After students have completed the assessment, you can access the results through the School and Teacher Dashboards. By clicking on “Reports” in the left-hand sidebar, you can access the “By Assessments” performance report. There are two report views to choose from: Summary and Detailed by Games. In the Summary report, the composite score for the entire assessment is located on the left-hand side. Additionally, a composite score for each main skill assessed is also shown. Just like the Summary report, the Detailed by Games report shows the main skills assessed; however, the score for each individual game associated with

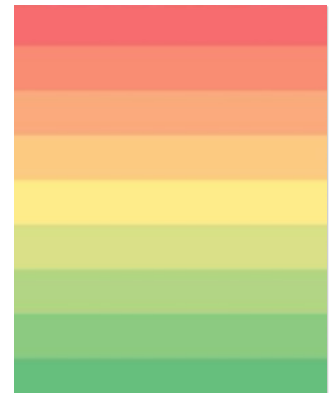

the main skills is also shown. By hovering over the game number, you can view the name of the game for additional information. Furthermore, each column can be sorted. Student names can be sorted alphabetically from A to Z or from Z to A. Note that this will sort the students based on their first name. By clicking on the word or arrows, each game’s column can be sorted based off of percentages from low to high or high to low.

The percentages are color-coded, giving a nice, quick visual for how well a student performed in each game. The colors are on a gradient scale from green to yellow to orange to red. The darker the green, the stronger the mastery over the content. As the percentage decreases, so does the hue before changing to the next color. The colors help indicate, at a quick glance, which students may need additional support or review of the materials.

# 1:1 Oral Decoding

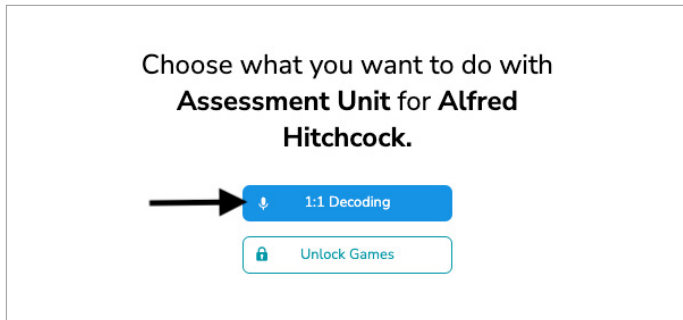

Many skills can be assessed by students individually and independently playing the games in the *Reading Playground*, but there is no substitute for the information that can be gained by a teacher listening to a child read words in isolation and tracking the child's miscues. The 1:1 Oral Decoding portion of the assessment is meant to give you the chance to assess your students' decoding as they read words aloud. You will work with each student 1:1 for approximately 5-7 minutes as they read words aloud from the 1:1 Oral Decoding Student Pages. You will record whether they read the word correctly, misread the word, self-corrected, or did not attempt the word in the EOP Summative assessment Oral Decoding section of your Teacher Dashboard.

You will be able to access the 1:1 Oral Decoding recording form on the EOP Summative assessment screen in your Teacher Dashboard.

You will also be able to access the results of the Oral Decoding assessment in the Reports section of your Teacher Dashboard. More information about the 1:1 Oral Decoding can be found in the EOP Summative 1:1 Oral Decoding Assessment document which you will also find in your Teacher Dashboard.

The table at the end of this document explains when we recommend using the *Reading Playground's 1:1 Oral Decoding Assessment vs. the Beginning or Advanced Decoding Survey (BDS or ADS)*.
